

Carpool for Prime Parking!

Transportation Services is piloting a **new 4+ carpool program** which will allow you to park in any non-reserved/unmarked space on campus.

The program requires a minimum of four employees to register as a carpool and split the cost of the new "A" permit via monthly payroll deduction. The current price of the "A" permit is \$121.50/month which is then split by the number of people in the group. (A four person carpool would each pay \$30.38 per month.) One hang-tag will be issued per group and can be transferred between the passengers as long as each person registers their car to that permit number.

Carpoolers are also eligible for the Alternative Transportation Program in which participants receive rideshare incentives including an allotment of free parking permits for days you need to drive alone. Carpoolers also qualify for the Guaranteed Ride Home (GRH) Program. The GRH program provides a free fleet vehicle to drive home if you carpool to work and need to leave early because of illness or an emergency (up to four times per year).

For more details on the program, contact Transportation Services at (951) 827-8277.

Zimsgiving Sweepstakes

If you're interested in carpooling but not sure who to share the ride with, go to Zimride.com to search for others looking to carpool.

Post a new ride as either a driver or a rider during the month of November to automatically be entered to win Amazon gift cards.
