

PARKING PERMIT BUY BACK PROGRAM

If you don't regularly use your car, turn in your parking permit for a \$50 bonus.

Construction is expected to start in Winter Quarter on the new Parking Structure 1 (PS1) project. Portions of Lot 13 will be closed for construction over a 12-month period beginning with a full closure of the eastern half of Lot 13 in late January or February. Effects of the closure will be felt campus wide as all parking lots will be heavily impacted in order to make room for those losing their current lot.

If you currently have a residential parking permit and find that you aren't using your car, you can turn it in for a one-time \$50 incentive plus you save money by no longer paying for a parking permit. You will also receive a refund for any un-used portion of the permit.

Official rules:

- The Program is available to undergrads that currently hold a residential parking permit at Glen Mor, Pentland Hills, Lothian or A&I.
- The student would be required to return their current parking permit for a minimum period of three months. A refund would be provided for any unused portion. They would not be eligible to purchase another parking permit until their three month obligation has been met.
- The resident can choose from a one-time \$50 payment paid via a credit to their Student Banner Account or a \$50 Dining Gift Card.
- If/when the student decides to re-purchase a parking permit, they would be allowed to obtain a permit for the same lot they had already been assigned to.

If interested, contact Transportation Services at (951) 827-8277.
