Section 4.01. Application of Regulations.

a) All applicable provisions of the California Vehicle Code pertaining to the parking of vehicles shall apply anywhere on the University or upon any of the grounds or parking facilities owned or controlled by the University, pursuant to Section 21113 of the California Vehicle Code.

b) The provisions of this Code prohibiting the stopping, standing or parking of a vehicle shall apply except when it is necessary to stop a vehicle to avoid conflict with other traffic or in compliance with directions of a Police Officer, Transportation and Parking Services personnel, or official traffic control devices.

c) Vehicles parked, stopped or standing in violation of any section of the UC Riverside Traffic and Parking Code or the California Vehicle Code (CVC) will be issued a notice of parking violation. Notice may be attached to the vehicle in violation or, pursuant to CVC Section 40202(d), mailed to the registered owner in instances when a citation cannot be placed on the vehicle.

Section 4.02. Valid Parking Permit Required. Except as provided in this Section, current valid University parking permits are required for all vehicles which are parked anywhere on the University.

Certain Vehicles are Exempt. Federal, State, University, County or City owned vehicles bearing identifying license plates are exempt from selected permit requirements. University owned vehicles may be assessed fees by the Director of Transportation and Parking Services. University owned vehicles may park in any legal parking space that is not exclusively designated for the holder of a specific permit, such as a disabled permit, medical permit, permits designating parking spaces for Deans, College Provosts, and the Chancellor, vanpool/carpool spaces and similar such permits. University owned vehicles may park in meters or in a posted timed or loading zone only for the posted maximum time allotted for the individual space. Commercially marked delivery vehicles may park without a UC parking permit for short periods of time, not to exceed 15 minutes, while picking up or making deliveries; however, commercially marked delivery vehicles may not under any circumstances park in exclusively designated spaces for permit holders, as described in this paragraph. Unless otherwise posted, permits are required at all times in posted reserved areas and spaces, as well as those areas and spaces that are posted for specific vehicle(s).

a) Certain Areas are Exempt. Permits are not required in metered parking spaces when payment is made to purchase time. License plates and placards for disabled persons issued by the Department of Motor Vehicles, are honored in accordance with current applicable regulations governing the use of such plates or placards. Permits are not required in White, Yellow or Green curb markings or in posted time zones designated by time limit signs, providing vehicles do not exceed the posted maximum time.

b) Availability of Permits. Parking permits are available to eligible students, faculty, staff employees, visitors and certain vendors/contractors though the Transportation and Parking Services office during normal business hours or online. Virtual Parking Permits purchased from pay station machines or online are valid only for the time specified in designated parking spaces within the designated parking lot(s), during posted hours of permit enforcement.

c) Special Events. Permits and associated fees unique to special events, and issued by the Transportation and Parking Services Events office, may be required to park in locations designated as special event parking areas. Event Permits are only valid in the parking lot(s) or parking lot type specified by the issued permit.

Section 4.03. Parking Facility Use. All vehicles parked in available spaces in a parking lot or facility are required to be operable, have a valid permit for that area, and display state issued temporary registration and/or license plates. Dwelling overnight or lodging on campus in any motor vehicle, motor home, trailer, boat, or house car in parking facilities and on roadways of the University is prohibited without specific authorization of the Chief of Police, the Director of Transportation and Parking Services, or “Designated University Official”. University parking permits are
valid only in designated parking facilities. Descriptive maps which indicate permits required for each parking facility are available at Transportation and Parking Services office.

Section 4.04. Display of Parking Permit. Parking permits displayed in or on a vehicle must be positioned so that the entire permit is clearly visible to enforcement officers.

Section 4.05. Transferred Permit. Parking permits are not transferrable. The use of a parking permit is limited to the person(s) to whom the permit has been issued and only for the specific vehicle(s) for which the permit has been issued.

Section 4.06. Reserved & Restricted Parking Areas. Where spaces or areas are posted to indicate that parking is restricted to the use of certain individuals or vehicles, all vehicles parked in such spaces must conform to the posted restrictions. Spaces referred to include but are not limited to those spaces set aside for: compact vehicle parking, specific vehicle license plates, persons with disabilities, persons with medical parking permits, housing officials in and around residence hall areas, service vehicles and Administrative Officers of the University. Unless exempted in Section 4.02 of this Chapter or by California Vehicle Code, vehicles using such restricted parking spaces must be issued the appropriate University parking permit(s). Unless posted otherwise, reserved/restricted parking spaces and areas are enforced at all times.

a) Reserved Parking. No vehicle shall park in any space or area that is posted as being reserved for specific vehicle(s), other than the vehicle specified.

Section 4.07. Expired Meter or Pay Stall. No vehicle shall park at a meter or pay parking space stall, during posted hours of enforcement, unless the time for which the vehicle is parked has been paid. Each consecutive instance of parking at an expired meter beyond the maximum posted time limit shall constitute a separate violation.

a) No vehicle shall be parked in a space that is serviced by an inoperable parking meter for a time period beyond the maximum posted time limit. Each consecutive instance of parking beyond the maximum posted time limit shall constitute a separate violation.

Unless otherwise posted, zones described in subsections below this section, shall be applicable at all times.

In the absence of yellow curb markings, signs will be posted to clearly indicate that the area is restricted to loading or unloading only. Each consecutive instance of parking beyond the maximum time limit posted shall constitute a separate violation.

c) **White** means no stopping, standing or parking for any purpose other than the immediate loading or unloading of passengers as posted by local ordinance. Such restrictions shall apply at all times. Any unattended vehicle that is stopped, standing or parked in a white zone is subject to citation. Each consecutive instance of parking beyond the maximum time limit allowed shall constitute a separate violation.

For purposes of this section, a vehicle shall be deemed to be reparked and in violation of this section despite any movement of the vehicle unless the vehicle is moved to another parking lot, or zone, with a different parking lot number, street or zone name than the one the vehicle was originally parked upon.
