

Expanded Service on RTA Express Routes

You can count on RTA to move you like never before with express bus service all-day long! RTA recently announced schedule changes to boost performance and expand service on their CommuterLink Express Routes. This includes Route 204 from Montclair through Ontario to UCR as well as Route 208 from Temecula through Perris to UCR.

CommuterLink buses are equipped with comfortable plush seats, overhead reading lights, USB charging ports, luggage & bike racks, and free Wi-Fi.

Why pay for parking when you can ride for free? Just swipe your UCR R' Card on board for your fare. Don't have an R'Card? Pick one up at the Highlander Service Station. There is a \$30 fee for the card, however your department may cover the cost. The R'Card not only provides free transportation on the RTA bus, but it also provides access to R'Blocks meal plans, library borrowing privileges and more.

Transit riders that enroll in Transportation Services R' Commute Program are eligible for incentives including 12 daily parking permits per quarter to use for days you need to drive to campus.
